* Explanation of Undefined/missing funds:
2024 saw some undefined expenses figuring as missing funds in the statement. This is due to discrepancy in actual account balance, i.e., funds in cash and bank account, and what is expected based on booked income and expenses.
This might be due to accounting error caused by complexity in 2024 bookkeeping. The Danish Church in Thailand had a prolonged period with no treasurer and restricted access to bank account. For 2025, a treasurer has been appointed and a new bank account with full access has been established.
